

Logistics

Stay

30-90 days

Eat

For the adventurous, try the caterpillars. For everyone else, there is 'Nshima' - slightly bland and resembles wallpaper paste, but very edible.

Sleep

There is guest accommodation on the mission station grounds.

Work

There is a huge amount to be done and never enough time to do it all. The ideal candidate is flexible and willing to help where needed.

Play

There is volleyball, swimming, games nights, beautiful scenery, the internet container, and good fellowship - you won't be bored!

Chitokoloki Mission Hospital

How about spending your overseas placement on the edge of the Kalahari Desert at Chitokoloki Mission Hospital, Zambia? The majority of the work revolves around the hospital but each day there are also opportunities for ministry through meetings, youth clubs, school classes, ladies' groups, and other means of gospel outreach.

The most important qualification for working at Chitokoloki is that you have a servant attitude towards

the work. In fact, it's not necessary to have any prior medical experience as there are a variety of support roles depending on your interests. Your placement would begin by settling into accommodation at mission station grounds, then getting immersed in the busy life at the hospital.

There are so many ways to help at Chitokoloki, whether it be through medical care or simply caring for those in need. Zambia has to be one of the sunniest places to visit and even during rainy season, the sun still shines most days.

If you want to discover a placement with many ways to help, many people to care for and many ways to use your gifts then Chitokoloki is the place for you!

Your **FIRSTSERVE** Experience

When your placement at Chitokoloki is completed you will have gained a whole new insight into the meaning of life. Africa gets into your blood; regardless of the

length of your stay you will never be the same again.

You will have the opportunity to work and worship alongside Christians from all walks of life,

learn new skills, have a greater understanding of the practical and spiritual needs in Africa, and return home with a strengthened vision for your future.
